*IF HIGH-PERFORMANCE BOATING IS TOP PRIORITY WITH YOU...
CHOOSE FORMULA FAS³TECH[®] FOR 2006*

FAS³TECH high performance delivers that elusive thrill of extreme adventure – racing over the water in complete control, yet feeling free as the wind. From the quick 271 to the awesome 382, the exclusive FAS³TECH multiplane hull design brings out the most speed, the most stability and the most structural integrity possible in each model. Custom-engineered for each FAS³TECH, the unitized fiberglass hull matrix has proven its offshore reliability again and again.

Hydrographic carbon-fiber instrument panels display the Livorsi[®] Smartcraft Monster speedometer and tachometer to maximum effect. The aft lounge is designed specifically for comfortable support, and all top grade upholstery is precision sewn to coordinate with the exterior graphics.

FAS³TECH cabins offer an inviting, open space to relax on comfortable Ultraleather[™] lounge seating. The indirect lighting creates just the right atmosphere for enjoying great music and conversation until it's time for more high-performance action.

Because you want your FAS³TECH to be unique, Formula offers three design levels including nine different graphics and seven color combinations to choose from. Personalize your look on the water for 2006 with bold new colors and spectacular new graphic designs.

position for driver or companion, and both footrests in the 353 and 382 also power for individual fit.

*MAKE IT YOUR #1 PRIORITY TODAY...
FORMULA FAS³TECH 2006!*

Your Formula Dealer:

Throughout model year 2006, Thunderbird Formula is celebrating 50 years of successful pleasure boat production. Thunderbird Formula has earned the prestigious reputation as today's foremost producer of premier powerboats.

In 1956, Thunderbird began building cathedral-hull boats in Hialeah, Florida. In the early '60s, Formula appeared on the scene with a deep-V hull and became a winning contender in offshore racing. During the mid '60s, Thunderbird purchased Formula and produced both lines in North Miami, Florida. Meanwhile, in Decatur, Indiana, Victor Porter began producing fiberglass boats in 1958 as Duo, Inc., and in 1970 he developed another line, Signa. As Signa became successful, Fuqua Industries, the company that had acquired Thunderbird Formula, purchased the line in 1974. Vic Porter was named president of Fuqua's group of pleasure boat companies, and when the opportunity arose in 1976, Vic purchased Thunderbird Formula.

Over the past thirty years, the Porter family has been actively involved in Formula's daily operations. President Scott Porter along with three brothers and a sister work together for progress and advancement of Formula powerboats while Vic Porter serves as chairman. The Porter family philosophy of continual improvement and customer-oriented service ensures that Formula will lead into the future as the hallmark of powerboat excellence.

THE FORMULA DIFFERENCE

THE HIGHEST PRODUCTION STANDARDS RESULT IN YOUR TOP-QUALITY FORMULA.

> A 500,000 square foot manufacturing facility, including corporate offices, was designed and built specifically for the production of Formula powerboats. To meet future needs, further expansion is planned to increase development and production at the present site.

- > Advancing technology is consistently utilized to improve Formula powerboats and ensure superior quality.
- > Excellent plant design and individual working conditions make it easy for employees to do their jobs right every time.

EMPLOYEE TEAMS ACCOMPLISH CONTINUAL PRODUCT IMPROVEMENT FOR FORMULA OWNERS.

- > On a volunteer basis, employees participate in Employee Involvement Teams to improve procedures and efficiencies. Self-Directed Work Teams also accomplish continual product improvement, comparing ideas and acting on them.
- > An on-site training program, C.O.R.E. (Champions of Reaching Excellence), expands and sharpens Formula employees' personal and professional developmental skills.
- > Each time they boat, Formula owners benefit from employee-generated product reliability.

FORMULA RELIABILITY CENTERS ENSURE EXCELLENT SERVICE FOR YOUR FORMULA.

- > Formula works with dealerships to provide quick, expert service, keeping Formula boaters happy and on the water.
- > Each dealership is assigned a Formula technical assistance representative to address questions requiring a direct response from the factory.
- > Dealers are well informed regarding Formula product so they can provide timely, expert technical and mechanical service.

FORMULA GUARD PROTECTS YOUR BOATING INVESTMENT.

- > The Formula Guard protection plan protects your boating investment with a 10-year structural warranty.
- > A five-year limited protection plan under Formula Guard covers engine/outdrive, accessories and components, including labor and materials.
- > Formula Guard is transferable during the first five years of ownership, increasing your Formula's value.
- > For detailed information visit our website at www.formulaboats.com.

JOHN ADAMS BLENDS FORM AND FUNCTION TO PERFECTION.

- > For over thirty-five years as exclusive designer, Adams has been creating Formulas with sleek, distinctive styling, award-winning performance and superior quality.
- > Formula enjoys the spotlight on the leading edge of technology due to Adams' continual investigative research.
- > Formula FAS³TECH[®] is renowned for speed, stability and structural integrity offshore plus the most spectacular production graphics available.

NMMA CERTIFICATION OF ALL FORMULAS IS A REASSURING SAFETY FACTOR.

- > As a charter member of the National Marine Manufacturers Association, Formula has always been committed to product integrity.
- > The safety of owners is of primary importance to Formula.
- > NMMA certification to ABYC standards is displayed in each Formula and should be a determining factor when considering other boats.

FAS³TECH[®] SPEED EQUALS FAS³T FORMULAS.

- > The Goal: increase Formula's legendary deep-V speed without sacrificing safety or handling.
- > The Result: the FAS³TECH hull, custom designed and engineered for each Formula performance model.

THE EXCLUSIVE FAS³TECH HULL IS THE SCIENTIFIC FORMULA FOR PERFORMANCE EXCELLENCE.

- > Extensive testing has proven that the FAS³TECH hull is not just another "step bottom," but rather a complex multiplane hull unlike any other.
- > FAS³TECH hull design delivers speed increases of 5 to 6 miles per hour over conventional deep-V hulls with identical weight and power.

FAS³TECH STABILITY IS THE RIDE YOU HAVE BEEN LOOKING FOR.

- > The FAS³TECH hull provides superior pitch and roll stability and a softer reentry.
- > Stability is achieved through step location and specific shape and placement of strakes, pads and chines.

FAS³TECH[®]

FORMULA'S ADVANCED SPEED STABILITY & STRUCTURAL TECHNOLOGY

FAS³TECH HULL STRUCTURE CAN TAKE IT OUT ON BIG WATER.

- > Company engineers worked directly with a fiberglass manufacturer in designing Formula's custom triaxial fiberglass to achieve maximum hull strength and rigidity.
 - > Reorienting the fiberglass to Formula specifications increased strength by 14% over standard triaxial fiberglass.
 - > AME[®] 5000 resin, known for its strength and resiliency, is applied exclusively throughout lamination.

CAD/CAM TECHNOLOGY PLUS R&D EXPERTISE ENSURE YOUR FORMULA'S SUPERIOR QUALITY.

- > Using state-of-the-art CAD/CAM technology, skilled operators transpose John Adams' designs to 3-D imaging.
- > Dimensions and positioning of components and systems are determined for precise fit.
- > Full-size master "plugs" are built, requiring months of handwork to finish, and full-scale cabin and cockpit mock-ups are built to fine-tune ergonomics and space utilization.
- > Computer Numerically Controlled (C-N-C) routers are programmed to cut panels, acrylic and other components, maintaining accuracy to within thousandths of an inch.
- > Sidewalls, headliners, cabinets and coaming panels meet exactly with unparalleled fit and finish.

INDIVIDUAL LAMINATION SCHEDULES RESULT IN THE SMOOTH, REFLECTIVE FORMULA FINISH.

- > Formula is famous for producing the highest quality finish in the industry through the consistent use of top-grade materials, following layering procedures exactly and also by the systematic maintenance of all molds on a rigorous schedule.
- > Patterned fiberglass shapes, produced through in-house Gerbercutter[®] technology, are layered with resin to build each component.
- > Divinycell[®] structural foam adds lightweight strength in specific areas as opposed to balsa construction that absorbs water when improperly applied, and utilizing Coremat[®] prevents surface print-through.
- > By allowing a part to remain in its mold the optimal length of cure time, Formula avoids the foggy finish and surface distortion often observed in lesser quality boats.

TOP QUALITY AME[®] 5000 RESIN ASSURES YOUR FORMULA'S LONG-LASTING BEAUTY.

- > Formula specifies higher cost AME 5000 resin because it has proven to be extremely effective in protecting surface gelcoat.
- > AME 5000 lends exceptional strength and resiliency while providing more flexibility and greater resistance to crazing, distortion and osmotic blistering.
- > Your Formula will retain its beautiful finish well into the future because Formula utilizes the best resins, approves the quality of each shipment on arrival, and carefully monitors storage temperatures and applications to ensure consistent results.

FORMULA'S UNIQUE CUSTOM-ENGINEERED MATRIX ENSURES THAT EACH FAS³TECH IS BUILT TO HOLD ITS OWN OFFSHORE.

- > Each hull is reinforced with a custom-engineered matrix that is much stronger than the usual stringer system.
- > A FAS³TECH's internal framework is a continuous-molded, one-piece fiberglass grid bonded to the hull with Plexus[®] adhesive.
- > The grid system, composed of woven fiberglass and AME 5000 resin, is filled with structural foam.
- > Multiple spans in the grid are designed to distribute load forces over the entire hull.
- > Rugged durability is vital offshore where wave action takes its toll on all but the strongest construction.

FORMULA JOINS THE DECK AND HULL UTILIZING SUPERIOR PROCEDURES FOR RUGGED DURABILITY.

- > Plexus[®], an industrial bonding agent, joins the deck and hull with an inseparable chemical meld.
- > The deck and hull joint is also bolted together with 1/4" stainless steel truss-head bolts backed up with heavy aluminum plates at 18-inch intervals.
- > This unyielding structure is vital offshore where wave action takes its toll on all but the strongest construction.

316L STAINLESS STEEL RAILS ARE A TOP-GRADE FINISH FOR YOUR FORMULA.

- > All Formula safety rails are welded 316L stainless steel, the highest marine-grade stainless available.
- > Anything less will not keep its like-new appearance.

SUPERIOR HARDWARE INSTALLATION PROVIDES INTEGRITY YOU CAN COUNT ON.

- > When installing deck cleats, stainless steel lock nuts are applied through stainless steel backing plates for maximum reinforcement.
- > All other deck hardware is bolted securely, not screwed down, to effect solid construction.

- > A flexible O-ring around each hardware fastener creates an invisible, watertight seal. Unlike silicone, bolts with O-rings can be adjusted or removed and will seal again when resealed.

- > All fasteners are chrome-plated stainless steel.

EACH FAS³TECH ENGINE ROOM FEATURES CUSTOM-STYLE RIGGING AS STANDARD.

- > The UMPCO cushioned loop clamp proven in the aerospace industry secures hoses and wiring harness conduit, maintaining a clean, orderly appearance.
- > Formula's meticulous routing of wiring and hoses facilitates troubleshooting.

PULTRUSION REINFORCEMENT ADDS CRITICAL STRUCTURAL STRENGTH.

- > During FAS³TECH construction, custom-fabricated fiberglass shapes are positioned along interior gunwales.

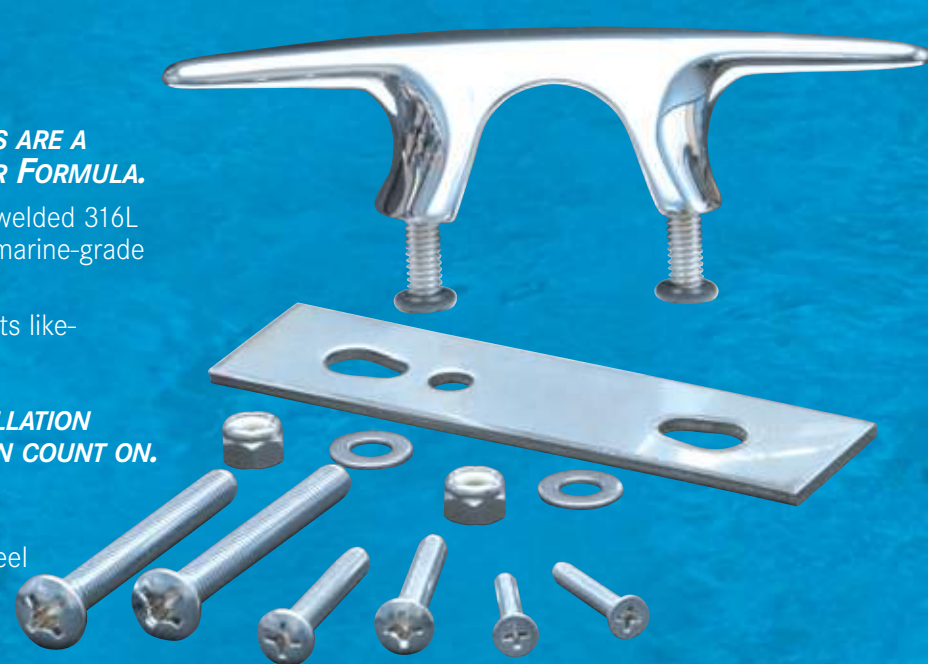

- > Chemically bonded to the hull with Plexus, these pultrusions provide increased back-up support with no hull distortion.

FORMULA TESTS ALL PROPOSED COMPONENTS TO ASSURE RELIABILITY.

- > New components are evaluated for quality and endurance through extensive testing in unfavorable conditions.

- > If an item fails to meet these tough standards, it won't be in your Formula. Only the most reliable and durable components with good service support are selected.

FORMULA FAS³TECH ENGINE MOUNTS MEAN MAXIMUM SECURITY.

- > Formula thru-bolts all FAS³TECH engines using heavy, angled aluminum race-style engine mounts.
- > In high-performance boating, lesser methods of securing engines are inadequate.
- > Important safety features include an engine room fume detector and the automatic fire extinguishing system.

FAS³TECH® EXHAUST SYSTEMS ARE ENGINEERED FOR MAXIMUM PERFORMANCE WITHOUT THE EAR-SPLITTING ROAR.

- > Formula utilizes CORSA's™ polished stainless steel exhaust system, diverting the exhaust through the transom silencer tips, as well as through the propeller hub.
- > Multiple exhaust points means minimal restriction and virtually no loss of power.
- > CORSA's Captain's Call™ exhaust diverter system is also available for the ultimate in harbor noise reduction.

FORMULA INSTALLS DEPENDABLE, DEEP-CYCLE BATTERIES FOR SUPERIOR RELIABILITY.

- > Deep-cycle batteries are standard in all FAS³TECHs.
- > Deep-cycle batteries can be charged repeatedly without losing strength – another way built-in reliability keeps you on the water.

E-T-A® CIRCUIT BREAKERS PROTECT YOUR SYSTEMS FROM EXCESS ELECTRICAL CURRENT DAMAGE.

- > "Push-push" switch design disconnects and resets the circuit.
- > Circuit breaker security enhances electrical component reliability.
- > Circuit breakers eliminate the need to stock a variety of fuses.

ALL FORMULA ELECTRICAL SYSTEMS ARE DESIGNED TO GIVE UNINTERRUPTED SERVICE.

- > Formula individually secures each wiring connection with a visible crimp instead of using pre-insulated connectors common in the industry.
- > The crimped connection is insulated with double-walled shrink tubing – the inner wall of hot-melt adhesive forms a sealed barrier against water and corrosion while the outer wall prevents shorts.
- > For longer runs, color-coded wires are routed through flexible conduit for protection and security.
- > Instrument panels are easily removed to access dash wiring connections.

THE LATEST IN SOUND SYSTEM TECHNOLOGY ENHANCES YOUR LISTENING ENJOYMENT.

- > Formula installs a top-quality AM/FM/CD stereo system with marine-grade speakers in each FAS³TECH.
- > Only premium audio systems with highly valued features are specified.

- > A crystal-clear digital signal and complimentary six-month subscription to Sirius™ Satellite Radio ensures static-free reception.

SIRIUS
SATELLITE RADIO

FORMULA FAS³TECH HELM FEATURES ATTAIN THE HIGHEST QUALITY IN DESIGN AND CONTROL.

- > At the helm, hydrographic carbon-fiber panels are sparked by stainless steel bezels on race-style gauges.
- > Livorsi™ precision engine controls are key to the Formula speed scene.
- > The McLeod® offshore bolsters snugly support and cushion the body, adjusting incrementally by pressing a button.
- > McLeod-designed footrests in the 382 and 353 also adjust for completely individualized ergonomics.

THERE'S PLENTY OF ROOM FOR YOUR GEAR IN A FAS³TECH[®] COCKPIT.

- > PFDs and other gear stow in side compartments.
- > The aft seat hinges forward to access additional smoothly finished storage.
- > The 382 and 353 sunpad trunk offers shorepower hookup along with cord and line storage.

ELIMINATING WOOD IN THE COCKPIT PROVIDES LASTING DURABILITY.

- > StarLite[®] XL polyurethane marine paneling is used instead of wood throughout the cockpit.
- > Seat cores are either rotocast plastic or formed fiberglass, creating a virtually indestructible framework.
- > Eliminating wood structure extends the cockpit's like-new appearance into the future.

SUPERIOR COCKPIT SEATING IS DESIGNED FOR RELAXED COMFORT.

- > Formula is regarded as the leader in expertly designed and executed seating.
- > Human dimension criteria are utilized to achieve correct proportions and contouring.
- > Separate, pre-shaped foam components are placed in each seat to provide optimal lumbar and leg support.

RUGGED, TRANSPORTATION-GRADE COCKPIT UPHOLSTERY LOOKS NEW FAR LONGER.

- > Formula upholstery holds its shape and resists tears due to its extra density and premium-grade backing material.
- > Top-grade vinyl accents are color-permeated and coordinate with the exterior Imron[®] colors.
- > Custom white vinyl, treated to resist staining, is comfortably cool, even in direct sunlight.

COMPUTERIZED CONSISTENCY AND SKILLED SEWING COMBINE TO CREATE FORMULA UPHOLSTERY'S SCULPTED APPEARANCE.

- > A computer-based GERBERcutter[®] cuts upholstery pieces accurately and consistently.
- > Assembled by Formula's skilled sewers, patterns come together in complex designs, finished with hand-guided topstitching, the hallmark of finest quality.
- > Specialized thread, Tenara[®] by Gore[™] used in sewing exterior vinyl upholstery, does not deteriorate from exposure to sunlight, cleaning agents or saltwater.

SPECIALIZED FOAM MAKES THE DIFFERENCE IN DRY COCKPIT SEATING.

- > Advanced Dri-Fast[®] polyurethane foam is used throughout the Formula cockpit.
- > Instead of being trapped, water freely drains through the foam, eliminating soggy seats.

CONTEMPORARY FAS³TECH CABINETY FITS PRECISELY.

- > Using the CAD/CAM system, programmed routers cut, drill and groove cabinetry materials for exacting assembly and fit.
- > Cabinetry is securely bolted in place with metal brackets, and strong latches keep doors closed under way.
- > A stainless sink is installed in a polished, solid composite countertop with beautifully rounded edges.

ULTRALEATHER[™] CABIN LOUNGE SEATING PROVIDES PRACTICAL LUXURY.

- > The bow berth and lounge are upholstered in white Ultraleather.
- > Comfort, beauty and function combine to create the perfect setting for relaxation and entertainment.
- > Ultraleather has the appearance and rich, supple feel of fine leather.
- > It is surprisingly tough and durable – spills wipe up easily.

FORMULA RESEARCHES THE LATEST IN LCD FLATSREEN TECHNOLOGY TO PROVIDE THE ULTIMATE VIEWING EXPERIENCE.

- > Formula seeks out A/V components capable of ensuring superior performance.
- > Premium LCD TV technology delivers a rich, razor-sharp picture.

TEST TANK EVALUATION OF EACH FORMULA ASSURES TURN-KEY DELIVERY.

- > Working through an extensive checklist, all instruments, systems and accessories are tested.
- > Engines are powered up to verify proper operation.
- > A continuous spray of water on the foredeck confirms a watertight seal around deck hatches, hardware and along the windshield.
- > In addition, Formula maintains an extensive on-water testing program to ensure the ongoing improvement of the Formula line.

FORMULA'S UNIQUE IMRON[®] PROCESS RESULTS IN A VIBRANT SURFACE FINISH THAT FAR SURPASSES ALL OTHERS.

- > Executed with DuPont Imron[®], a durable all-weather urethane, Formula graphics excel in design, quality and lasting beauty.
- > Formula offers the widest range of color selections and designs to personalize your powerboat.
- > Complicated preparation, patterning and masking procedures are involved in each different color application.
- > Imron-finished graphics never chalk or fade as compared to colored gelcoat; Imron retains its original, like-new brilliance and glossy surface year after year.

THE FINAL QAP INSPECTION ASSURES ULTIMATE QUALITY IN YOUR FORMULA.

- > During the Quality Assurance Program inspection, both corporate and production personnel thoroughly evaluate your Formula.
- > Fit and finish details are examined from a customer's point of view.
- > Critical observation by Formula Team members reinforces the importance of maintaining top quality for owners.
- > Final approval overall earns the gleaming Formula logo and prestigious Thunderbird emblem displayed on each model.

- > SmartCraft instrumentation w/DTS digital throttle & shift control system (on select Mercury engine packages only)
- > 17" widescreen LCD TV/DVD w/concealed antenna, phone & dockside access cords for cable TV & phone
- > 5,000 BTU reverse cycle air conditioner w/digital climate control
- > Head unit w/Y-valve for macerator discharge or dockside pumpout
- > VacuFlush® unit w/six-gallon holding tank & dockside pumpout
- > VacuFlush unit w/six-gallon holding tank & Y-valve for macerator discharge or dockside pumpout
- > 3 KW/120V Westerbeke™ gas generator
- > Engine freshwater flush system
- > Captain's Call™ exhaust diverter
- > Bimini top in color-matched non-fading Sunbrella acrylic fabric w/Seamark vinyl undercoating or white polyester fabric w/coated resin topside & water-resistant underside coating/concealed engine-room storage
- > Bimini front & side connectors & aft curtain in color-matched non-fading Sunbrella acrylic fabric w/water-repellent Seamark vinyl undercoating or white polyester fabric w/coated resin topside & water-resistant underside coating

353 FAS³TECH STANDARD EQUIPMENT

- > NMMA Yacht Certification
- > Transferable 5-Year Formula Guard Limited Protection Plan
- > Silver Series three-color Imron® design #1, #2 or #3 in Barbados, Midnight Beach or Bayport
- > FAS³TECH hull
- > Foam-filled continuous molded fiberglass structural grid
- > Chemically bonded & thru-bolted deck-to-hull joint
- > Heavy-duty PVC gunwale w/stainless steel insert
- > Concealed fiberglass anchor locker
- > Stainless steel hardware & 316L stainless steel welded rails
- > Stainless steel fuel fill w/integral vent
- > Four Bomar® cabin venting hatches w/screens
- > Tinted, tempered curved-glass windshield
- > Concealed air horn
- > Transom-mounted stereo remote control
- > Integrated swim platform w/concealed 316L stainless steel swim ladder

353 FAS³TECH COCKPIT

- > Continuous molded fiberglass deck & cockpit liner
- > Dash panels w/blue, red or magenta carbon-fiber finish
- > Livorsi® Monster & Redline backlit instrumentation, domed w/polished chrome bezels
- > Ritchie® 5" offshore compass
- > Digital depth sounder
- > Livorsi shifters/throttles w/in-handle trim switch
- > Safety ignition stop switches w/tethers
- > Tilt steering wheel w/blue or red accent inserts
- > Latham® external hydraulic steering
- > Dash locker w/vanity mirror
- > Auxiliary 12V outlet
- > Fingertip K-Plane™ & trim override switches
- > Kiekhaefer® trim & tab indicators
- > Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- > Dash-mounted full-feature stereo remote control
- > Two 170W 6" x 9" 3-way marine-grade speakers
- > Built-in trash receptacle
- > Polished stainless steel drink holders
- > Courtesy lighting
- > Integral 316L stainless steel safety rails
- > Weather-resistant cockpit seating featuring Dri-Fast® foam & StarLite® XL synthetic marine panel construction
- > McLeod® electric-assist offshore-style bolsters
- > McLeod electric-assist footrests
- > Aft lounge seating for four w/storage beneath
- > Trunk with shorepower hookup, cord storage & transom shower
- > Side coaming storage
- > Fire extinguisher
- > Battery parallel emergency switch
- > Battery disconnect switches for starting & auxiliary batteries
- > Custom cockpit carpet w/sculptured FAS³TECH logo
- > Cockpit cover in color-matched non-fading Sunbrella® acrylic fabric w/SeaMark™ vinyl undercoating, or white polyester fabric w/coated resin topside & water-resistant underside coating

292 FAS³TECH CABIN

- > Sliding/locking cabin door
- > Ultraleather™ double bow berth
- > Ultraleather lounge seating
- > Décor pillows
- > Entertainment center w/stainless steel sink, demand water system & 25-quart Igloo® cooler
- > Kenwood® remote control AM/FM/CD stereo w/changer control & two 100W 6 1/2" 2-way marine-grade speakers
- > Six-month subscription to Sirius™ Satellite Digital Broadcast
- > Hanging locker
- > Portable head unit w/dockside pumpout
- > Carbon monoxide detector

292 FAS³TECH ENGINE ROOM

- > Twin engine installation
- > Motorized hatch lift
- > Bimini top storage area
- > Courtesy lighting
- > Fume detector
- > Automatic fire extinguisher
- > Thru-bolted race-style engine mounts
- > Two marine batteries w/battery retainers
- > Active & passive galvanic corrosion protection systems
- > Bilge blowers
- > Automatic bilge pump
- > Bilge high water alarm
- > Bennett® hydraulic dual ram trim tabs
- > External stainless steel tie bar
- > Stainless steel lab-finished 4-blade props
- > CORSA's polished stainless steel exhaust system w/silencer tips

292 FAS³TECH AVAILABLE EQUIPMENT

- > Gold Series four-color Imron design #1 or #2 in Barbados, Midnight Beach or Bayport
- > Stainless steel bow docking lights
- > Transom shower
- > VHF radio w/antenna
- > SmartCraft instrumentation system
- > SmartCraft instrumentation w/DTS digital throttle & shift control system
- > 9" widescreen ceiling-mounted flip-down LCD monitor/DVD player w/gameports, memory stick reader and headphones
- > Kenwood AM/FM/CD stereo w/changer control, dash-mounted full-feature stereo remote control, 720W amplification & 10-disc CD changer
- > Head unit w/Y-valve for macerator discharge or dockside pumpout
- > Engine freshwater flush system
- > Captain's Call exhaust diverter
- > Mechanical trim & drive indicators
- > Bimini top in color-matched non-fading Sunbrella acrylic fabric w/Seamark vinyl undercoating or white polyester fabric w/coated resin topside & water-resistant underside coating
- > Bimini front & side connectors & aft curtain in color-matched non-fading Sunbrella acrylic fabric w/Seamark vinyl undercoating or white polyester fabric w/coated resin topside & water-resistant underside coating
- > Custom cockpit carpet w/sculptured FAS³TECH logo
- > Cockpit cover in color-matched non-fading Sunbrella® acrylic fabric w/SeaMark™ vinyl undercoating, or white polyester fabric w/coated resin topside & water-resistant underside coating

2006 COLORS AND GRAPHIC DESIGNS

Step up in the world of high-performance boating with Formula 2006 FAS³TECH[®], the ultimate personal statement on the water!

2006 Formula FAS³TECH performance boats can be ordered in a variety of different colors and graphic selections. Three Imron[®] design levels (Silver, Gold and Platinum) are offered to provide more choice in performance graphics. In addition, all FAS³TECHs sport metallic silver vinyl accents in the cockpit.

SILVER IMRON DESIGNS #1, #2 AND #3

Silver Imron Designs #1, #2 and #3, which are standard on all FAS³TECH models, include three triple-color selections: Barbados, Midnight Beach and Bayport. Each Imron design incorporates coordinating colors on cockpit bolsters, rear seating and sunpads.

GOLD IMRON DESIGNS #1 AND #2

Gold Imron Designs #1 and #2 feature solid hullside Imron and include three four-color selections: Barbados, Midnight Beach and Bayport. Each Imron design incorporates coordinating colors on cockpit bolsters, rear seating and sunpads.

PLATINUM DESIGNS

The 382 and 353 FAS³TECHs are available in the new exclusively designed Acceleration and High Voltage and also Lazer and Flash. Each offering includes a minimum of five Imron custom colors with special fading effects and clearcoat finish. Each design incorporates coordinating colors on cockpit bolsters and rear seating. Sunpads incorporate color-coordinated vinyls in a powerful graphic presentation.

FORMULA

THE Ultimate Performance Experience

As Formula celebrates its 50th Anniversary in 2006, it's clear that racing has been an integral and important part of the company's heritage. From 1963, when Formula made its first appearance in the Miami-Nassau race to Betty Cook's campaign of the K-5 catamaran to a World Championship in 1981, Formula Racing is a viable part of performance heritage. In recent years, Formula Racing has captured numerous World and National titles in several APBA Factory and Performance classes.

Now, Formula is proud to build on its high-performance heritage by introducing the Formula Ultimate Performance Experience. This new program is designed to bring Formula performance to poker runs, dealer rendezvous, customer appreciation days and other special events.

Formula Racing continues to be the winning choice of offshore racing, and will be represented at APBA national races and various regional race events. Check upcoming events on our website at <http://racing.formulaboats.com>.

JOIN US AND BE A PART OF FORMULA RACING AND THE FORMULA ULTIMATE PERFORMANCE EXPERIENCE!

FORMULA 2006...

FORMULA LINEUP

The Formula powerboat lineup includes Sun Sport, Super Sport, Cruiser, Yacht and FAS³Tech[®] models. The 330 Sun Sport is pictured at bottom. The Sun Sport series ranges from 24 to 33 feet including two bowrider models, while the 370 SS and the 400 SS are the sleek Super Sports. If you want exhilarating speed, get into a Formula FAS³Tech, ranging from 27 to 38 feet, pictured third from top. PC boating is luxury cruising at its best, ranging from 27 to 40 feet, second from top. The Formula 48 Yacht, top, is today's elite choice in premier yachting. Call **1.800.736.7685** to receive a free brochure, or visit your nearest Formula dealer to see the new Formula models for 2006.

FORMULA GEAR

Formula Gear and Accessories are top-quality items featuring the impressive Formula logo. If you like up-to-date colors and styling, visit your Formula dealer for a free catalog, order online at the Formula Gear website, www.formulagear.com, or call **1.800.736.7685** to receive your free Gear catalog from Formula.

YOU'RE IN COMMAND. BOAT SAFELY, TAKE A BOATING EDUCATION COURSE AND GET A VESSEL SAFETY CHECK FOR YOUR BOAT. FOR MORE INFORMATION, CONTACT THE UNITED STATES COAST GUARD AUXILIARY AT 800.368.5647 OR WWW.CGAX.ORG, OR THE UNITED STATES POWER SQUADRONS AT 888.FOR.USPS OR WWW.USPS.ORG.

FORMULA WEBSITE

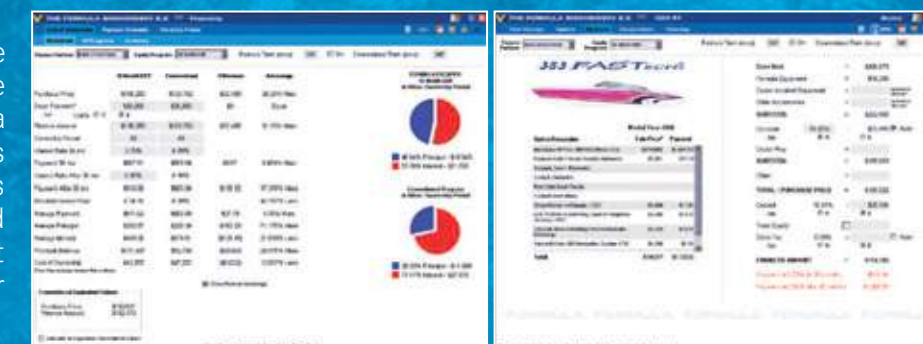

Formula's website is continually updated with new features, text and pictures. Check out the latest Formula dealer and owner events, boat care articles, owner forum and Formula's company history. You can also order a catalog or visit the feedback/e-mail section with comments or suggestions. Formula is at your fingertips! You will find Formula online at: www.formulaboats.com and formulagear.com.

Click on these sites to see the newest and best of Formula!

THE FORMULA SHOWROOM[®]

Continually updated Formula software creates a comprehensive display of the 2006 lineup. This program, The Formula Showroom, helps make the exciting process of choosing your Formula graphics, options and finance program much easier! Find it in the "Build Your Formula" section at www.formulaboats.com or see your Formula dealer for details.

FORMULA ACTION

The Formula Action is a news publication filled with company and product updates, new model information and owner boating experiences. The Action is mailed to Formula owners and is also available at your Formula dealership, or call **1.800.736.7685** to receive a free copy.

FORMULA DVD

The 2006 Formula DVD features Formula Sun Sport, Super Sport, Cruiser, Yacht and FAS³Tech powerboats in exciting action along with a brief Formula facility walkthrough. Call **1.800.736.7685** to receive your free DVD.

FORMULA CANVAS

Formula custom-fitted canvas features either color-matched, non-fading Sunbrella[®] acrylic fabric vinyl undercoating or white, polyester fabric coated with vinyl resin on the topside and finished with a durable water-resistant coating on the underside. Both canvas packages include 316L stainless steel framework, weather-resistant YKK zippers and the Formula name embroidered on the boot.
